- **Q1: What to do if the O&M account is frozen?**
    - **Solution:** Access the self-service portal at `http://construction.om.portal/unfreeze` or call the IT support hotline at `555-0199`.
- **Q2: How can I reset a forgotten system password?**
    - **Solution:** Click the "Forgot Password" link on the login page. You will need to verify your identity via the mobile APP portal or provide your registered employee ID to your department lead.
- **Q3: What is the procedure for reporting a newly discovered system fault?**
    - **Solution:** Log in to the O&M reporting portal and initiate a "Maintenance Work Order Application." Be sure to select the appropriate fault category and department for approval.
- **Q4: How do I check the status of a pending maintenance request?**
    - **Solution:** After logging in, check your "pending work order information" in your personal dashboard. The system provides daily and weekly updates on completion status.
- **Q5: Who should I contact if a key operational unit is not responding to a work order?**
    - **Solution:** You can use the system to "send orders to other units" to assist in processing. If there is still no response, escalate the issue via the "Manual Escalation" function in the portal.
- **Q6: What should I do if the AI "Digital Employee" cannot answer a technical question?**
    - **Solution:** Use the "Online Recording" function to document the unanswered issue. A human O&M staff member will perform a manual intervention and follow up with you.
- **Q7: How is the knowledge base updated with new troubleshooting solutions?**
    - **Solution:** After a manual intervention by O&M personnel is completed, the system automatically updates the knowledge base with the new information via the "Smart Feedback Loop".
